

YFZ450R

BREATHER BOX / OIL RETURN

FITS MODEL YEARS 2009-2024

www.dbratv.com

Kit Includes:

5 – Hose Clamps
30" Hose
Breather Box

Install Instructions:

1. Remove OEM Breather Box and hoses.
2. Remove the two bolts from side of head.
3. Rotate hose barb to approximately the 11 o'clock position. The barb on breather box and stator cover need to line up.
4. Bolt your NEW DBR Breather Box to the head using the OEM Bolts – Torque to 7.2 ft lbs.
5. Cut and route hoses. Hose Lengths 11", 15", and 4" need to be cut from the supplied hose.
6. Install the 11" hose using 2 hose clamps. Routing from the head to the bottom front facing barb on the breather box. Tighten hose clamps.
7. Install the 4" hose using 2 hose clamps. Routing from the bottom breather box barb to stator barb. Tighten hose clamps.
8. Install the 15" hose using 1 hose clamp. Routing from top forward facing barb down towards antifreeze bottle. Tighten hose clamp.
9. ENJOY!!!
